Collaborated with Memorial and the schools recently for Back-to-School events.

Currently there are 70 food permits in Menard County. At this time, there are no known issues with any of those establishments that are permitted.

IV. Unfinished Business

a. Nothing to report

V. New Business

a. IPLAN (Illinois Project for Local Assessment of Needs)– The employee that was working on the IPLAN for Menard County resigned a few months ago and it never got finished. John, with the assistance of Olivia and Rachel are in the process of putting the final touches on it and it will be sent in to IDPH in the next few days. One thing that is being added to it is Vehicle Awareness, due to the numerous accidents in the area, with agriculture equipment on the roads, cell phone use while driving and speeding on county roads.
